

MULTI-LINE SCOREBOARDS

Indoor scoreboard

Accurate race information. Especially designed for indoor tracks, this multi-line scoreboard will bring clear information to your drivers. They will be able to check their lap times and positions, marked with their own names. The scoreboard will also display a race overview before and after the race.

TECHNICAL SPECIFICATIONS

Size H730 x W1650 x D90 mm

Functionalities:

The topline displays the fastest driver.

Every time a driver passes the line his name and time will be visible on the scoreboard.

Characters

30 alphanumeric characters per line

Character height: 50mm

Color: multi-color

Communication

Communication via RS232

Outdoor scoreboard

Visible from a long distance. The main advantage of this timing scoreboard is its visibility. It is readable from about 90 meters. The light sensor and its ultra bright LEDs allow drivers to check their lap times and positions in bright daylight.
